Profile Summary

Full Stack Developer with hands-on experience in developing web applications using **Java, Spring Boot, React, REST APIs, and MySQL**. Strong understanding of Object-Oriented Programming (OOP), Data Structures and Algorithms, and software development practices. Experienced in building responsive user interfaces, developing backend services, integrating databases, and working with modern development tools. Passionate about building scalable applications and continuously learning new technologies.

Technical Skills

Programming Languages: Java, JavaScript (Basic), SQL

Frameworks & Technologies: Spring Boot, Spring MVC, Hibernate, Spring Data JPA, RESTful APIs, JSON, Spring Security(JWT)

Frontend Technologies: React (Basic), HTML5, CSS3, Tailwind CSS

Databases: MySQL, MongoDB (Basic)

Tools & Platforms: Git, GitHub, Postman, Maven, VS Code, Eclipse

Concepts: Data Structures and Algorithms, OOP, Design Patterns, SDLC, Problem Solving, Analytical skills, Debugging, Exception Handling, Agile/Scrum Methodology, Microservices Architecture (Basic), Unit Testing Concepts

Cloud & DevOps: Basic knowledge of AWS, CI/CD concepts, cloud deployment, and DevOps practices

Work Experience

CETPA Infotech Pvt. Ltd.

Jul 2023 - Aug 2023

Web Development Intern

- Developed responsive web applications and CRUD-based modules using HTML, CSS, JavaScript, and database.
- Applied debugging, problem-solving, and clean coding practices during development and testing phases.
- Used Git for version control and gained exposure to SDLC workflows and collaborative development practices.

Education

Centre for Development of Advanced Computing (CDAC), Bangalore

Aug 2025 – Feb 2026

PG-DAC (Post Graduate Diploma in Advanced Computing)

Bangalore

Score: 68%

SRMS College of Engineering and Technology, Bareilly / AKTU, Lucknow

2024

B.Tech (Bachelor of Technology), Computer Science and Engineering

Bareilly

Score: 62.4%

Projects

Personal Portfolio Website (HTML, CSS, Tailwind CSS, React)

- Developed a responsive frontend application using React, HTML, CSS, and Tailwind CSS to showcase projects, technical skills, and professional experience
- Built reusable and modular React components to improve maintainability and scalability.
- Implemented responsive design using Tailwind CSS ensuring cross-device compatibility.
- Optimized navigation and layout to enhance user experience and accessibility.

Loan Management System (Java, Spring Boot, Spring Data JPA, MySQL, Spring Security, REST APIs)

- Developed application modules for loan processing and customer management using Java, Spring Boot, Hibernate, and MySQL.
- Designed and implemented RESTful APIs for repayment tracking and account management functionalities.
- Applied layered architecture, validation, and exception handling for scalable and maintainable application development.
- Implemented JWT-based authentication and role-based authorization using Spring Security
- Performed API testing using Postman and managed source code using Git and GitHub following clean coding practices.
